

"Hi everyone, thanks so much for all your wishes. I'm recovering well and am now out of hospital. I have a chipped bone in my vertebrae and lots of swelling but Rhianon is still in hospital recovering. She has several breaks in her legs and having lots of surgery. She is staying positive though and hopes to make a strong recovery. Thanks to everyone who is helping us with our recovery and for all the best wishes - they are much appreciated."

You can still send your get well wishes to Brendo and Rhianon via email
